

Now, we need your help to show
 Montgomery County its bus riders want
 better transit options!

Email pete@smartergrowth.net to learn more!

Bus rapid transit is coming to Montgomery County's major transit routes!

In the next few years, US 29, MD 355, and Veirs Mill Road will get:

- **Dedicated lanes** so transit vehicles don't get stuck in traffic
- **Frequent, reliable service** 7 days/week
- **Real-time arrival data** so you know exactly when the next bus will arrive
- **Extra-long vehicles** with increased capacity for seating
- **Fare payments before boarding** so you can board quickly through any of the three doors
- On-board features like **WiFi and USB chargers** to make your ride easier

Once built out, this new transit network will cover **nearly 100 miles** on major roads to help you move around the county.
